

RAIN SPOILS FIRST GAME

But Spaulding and I. A. C. go
Through 6 Innings

LATTER WAS AHEAD, 16 TO 3

Spaulding's Pitchers Wild as Hawks,
But the Team Played Well in the
Field—The Italians Were
Strong.

The Spaulding high school baseball team opened its season Saturday afternoon in a game with the Italian Athletic club team at the Rangers grounds on Berlin street. On account of the rain and muddy condition of the grounds, which made good ball playing impossible, the game was called at the end of the sixth inning with the score 16 to 3 in favor of the Italians. Spaulding tried out three pitchers, Fisher, Cutler and Carwell, and none of them could do anything with the wet ball.

In the six innings that Spaulding was in the field, thirteen men were passed to first on balls and several runs were forced in, while other runs were let in on wild pitches. Spaulding made but two errors and showed up well in field work. Capt. Carwell occupied first base, Malden second, Griffin third, Cummings short, Jackson, Smith and Cutler field, Johnson catcher.

The game was also the first of the season for the Italian club and with practically the same players as last year their prospects are good for a strong team this year. Nicora pitched the first three innings of Saturday's game and Scampini the rest. Calagni played first, Davidi catch, Malberini second, Broggi third, F. Colombo short, H. Colombo, Mariotto and Scampini field.

The score by innings:

I. A. C. 1 2 3 4 5 6 7 8 9 10 11 12
S. H. S. 0 1 1 0 1 0 0 3 4 2

Runs made by Nicora 3, Scampini 2, F. Colombo 1, Davidi 1, Malberini 1, Calagni 1, Broggi 1, H. Colombo 1, Griffin, Carwell, Fisher, hits, Nicora 2, Scampini 2, Davidi 2, Malberini, Calagni, Broggi, Griffin, Carwell, Cutler 2; struck out by Nicora 2, Scampini 3, Fisher 5 in four innings; bases on balls, Nicora 2, Scampini 4, Fisher 4, Cutler 5 in one inning, Carwell 5; umpire, Rossi.

ON THE COLLEGE DIAMONDS.

Holy Cross Victor Over Brown, Princeton
Drubs Columbia.

The college game of particular note Saturday was that between Brown and Holy Cross, rivals of old, who met for the first time in three years. The Worcester nine won out in a hard fought contest, 2 to 0. Both pitchers did fine work and were well supported. Some of the other games were shut-out affairs, Cornell blanking Lafayette, Amherst doing a similar stunt to Bowdoin and Fordham to Rensselaer. Princeton soundly drubbed Columbia, 17 to 3, while Yale has Trinity gasping, 7 to 1. The Harvard nine has gone South and will begin its schedule this week. Saturday's results were:

At New Haven, Ct., Yale 7, Trinity 1.
At Providence, Holy Cross 2, Brown 0.
At Amherst, Amherst 1, Bowdoin 0.
At Amherst, "Aggies" 3, Worcester "Tech" 2.
At Princeton, N. J., Princeton 17, Columbia 3.
At Middletown, Ct., Wesleyan 4, Springfield Training school, 3 (12 innings).
At Nashville, Tenn., Michigan 7, Vanderbilt 4.
At Andover, Andover 8, Yale freshmen 1.
At South Bethlehem, Pa., New York university 3, Lehigh 1.
At Princeton, N. J., Princeton freshmen 18, Haverford college 3 (five innings).
At Ithaca, Cornell 3, Lafayette 0.

Mother's milk
will supply the
baby laxative enough, if
she takes a candy Cascaret.
And the laxative will be natural,
gentle, vegetable—just what baby
needs. Try one and you'll know
why millions of mothers use them.

HARVARD EIGHT BEATS COLUMBIA

Columbia Crew Outwitted and Finishes
Six Lengths Behind.

Boston, April 19.—The powerful Harvard crew defeated a weaker and less expert crew from Columbia on the Charles river at Cambridge Saturday afternoon by six full lengths, which was a runaway from the start. After the first few dashes, strokes that followed the referee's pistol shot, there was never any question regarding the outcome. As if impelled by a powerful motor, the Harvard men swept proudly down the Charles river basin before 20,000 people on the river bank, and like an arrow shot beneath the arching pillars of the bridge to the finish line. Behind them trailed the Columbia shell with the men plunging their blue and white blades into the water in a vain effort to catch, or even keep up with, the firing crimson shell. Despite the almost perfect river conditions, the Columbia boat rolled like a knockabout in a heavy sea, and it was with difficulty that Coxswain Hockwood kept the nose of his boat heading down the course. Harvard's veteran crew showed all the dash and force which were out Yale at New London last year, while the exhibition of Columbia, even to Coach Rice, was disappointing.

60,000 IN RIOT AT GAME.

Mob Charges on Foot Ball Field and Sets
Fence Afire.

Glasgow, April 19.—The final soccer foot ball game for the Scottish cup ended in a riot Saturday. Sixty thousand spectators charged upon the playing field and tore up the goal posts and set fire to the entrance gate fences and ticket booths. More than 40 persons were hurt and taken to hospitals.
When the firemen tried to put out the blaze, the crowd cut the hose and stoned the firemen, making their efforts useless. Mounted police then charged the rioters, and in the face of a hail of rocks, bottles and other missiles, succeeded in keeping them from the grand stands and the pavilion, in which the players had taken refuge. These structures alone were saved from the flames.
The trouble arose because the teams refused to play extra time to settle a draw. The injured, for the most part, are policemen.

JOHNSON TO MET KAUFMAN.

Verbal Agreement Made Between the
Champion and the Joke.

New York, April 19.—A verbal agreement for a match between Jack Johnson, the world's heavyweight champion, and Al Kaufman of San Francisco, was entered into here yesterday between Johnson and Billy Delaney, representing Kaufman. The fight is to take place when Johnson returns from England and before the Johnson-Ketchel fight.
Johnson will sail for that country on Sept. 15, and expects to return about Sept. 1. No articles were signed and Johnson posted no money. Delaney, in behalf of Kaufman, deposited \$5,000 to cover any forfeit money that might be put up by Johnson.

WESTON WALKS INTO CHICAGO.

Arrives on Time and Admirers Give Him
a Watch.

Chicago, April 18.—Edward Payson Weston marched through the door of the Illinois Athletic club here at 6:15 o'clock Saturday night, completing the first great lap of his New York to San Francisco walking tour on schedule time.
The veteran pedestrian was accompanied by a police escort and cheered by crowds as he passed through the streets, head erect and step as firm as it was 40 years ago, when he passed through Chicago on his first trip.
A dinner and reception was given him at the club during the evening, and he was presented a watch by his admirers. He left to-day for the Pacific coast.
Weston left New York March 13, walking 1,288 miles and averaging 47 miles a walking day.
On his trip here from New York last year, he averaged 45 miles a day.

FAVOR FOR INCOME TAX

Interest Manifested in Senate
Debate

PARADE OF NOTABLES

President and Mrs. Taft Help Inaugurate the Outdoor Show—Libertarian Commission Vacancy May Not Be Filled.

Washington, April 19.—The project to attach an income tax as an amendment to the tariff bill is a growing one; the more it is considered the more is thought of it. This is not likely to be pleasing news to the East, but it is a favorite thought at least in the West and the South, if the program of the southern democratic senators counts for anything. It is especially favored by such men as Senator Cummins, who is about to introduce an income tax bill of his own, and it is also advocated by such a senator as Borah of Idaho. It would not be at all surprising if the income tax proposal should become the leading feature of the debate in the Senate over the tariff bill. At all events the senators are giving the proposal their serious thought, and what they are saying is watched with keen interest by members of the House, where the income tax proposal has its advocates from the South and West. The bill introduced by Senator Bailey seems to have been a very sudden thought. It is the section that was attached to the Wilson bill and which was declared unconstitutional, but the senator seems to have snatched at the income tax of that bill without thought of what it contained, with the result that the bill has introduced in crude in no small degree. Even such figures as "1905" were corrected by him in the bill he submitted. But should an income tax become a serious proposition in the Senate no doubt one could be framed that was the result of the best thought of those who favored such a tax.
The high price of wheat and the fact that it has apparently been cornered or that there is a scarcity of it in the markets of the world has served to rivet attention upon the income tax. The duties on wheat, oats, barley, rye, and other farmers' products. J. H. Hill is quoted here as saying that the United States will be importing wheat from Argentina this fall. That would surely mean a scarcity of wheat in the land and very high prices for the commodity, but the Senate bill proposes to make the price still higher by attaching a high duty to it. And all this is done to give Senator McCumber of North Dakota some prestige at home before election time. The beginning of the debate in the Senate on Monday is now looked forward to. Notable speeches are sure to occur in the course of the debate. The senators who have been away are all expected to be in their seats, exclusive of Senators Crane and Lodge, who have gone to New York for rest and to escape importunities for tariff attention.

KISSED BY GIRLS HE RESCUED.

Elevator Boy Saved Many Lives in New
York Fire.

New York, April 19.—Fire in the Empire building at Broadway and Bleecker street late Saturday entrapped 125 girls working on one of the upper floors.
All were rescued, however, the elevator boy in the building running the net repeatedly through the smoke and flames, and carrying 50 of the young women down, while the others fled down the fire escapes, reaching the street unharmed.
The fire was quickly extinguished and did little damage. The fire started in a stack of feathers on the first floor and was detected quickly by the firemen, who occupied the lower floors of the building had closed up for Saturday afternoon. But on the tenth floor 125 girls were at work, and it was here that the panic occurred. The dense smoke from the burning feathers was carried quickly up the elevator shaft, which was open and at the bottom of which was Tony Sarino, the elevator boy, and his cat.
Sarino shot his cat through the smoke to the top of the shaft and bravely made more than a half-dozen trips to the street level, bringing many of the girls to safety. The others were brave enough to descend by the fire escapes.
Sarino was quickly named by a crowd of girls who watched the girls come down the fire escape and later saw the girls whom Sarino had rescued surround him and hug him for saving them.

She Could Manage.

"Do you think you could manage with my salary of \$12 a week, darling?" he asked, after she had said yes.
"I'll try, Jack," replied she, "but what will you do?"—Universalist Leader.

FLESH-FORMING FOOD

When you buy a package of Samose, the great flesh forming food, weigh yourself and see how much you gain in the first week's use. D. F. Davis will tell of many of his customers who a month or so ago were thin, pale and haggard, but who are now, through the use of Samose, plump, strong and happy, with perfect health and attractive faces. He has seen so many instances of the wonderful power of Samose to restore the weak and sick to strength and health, and to make good natural flesh that he gives his personal guarantee with every package of Samose he sells to refund the money if it does not prove satisfactory. Samose is a pure preparation, and can be used with absolute confidence by the most delicate. It gives remarkable results with children who are weak and run down and without appetite. It builds up the thin, pale, puny girl and woman to perfect plumpness and health. It is the only flesh forming food of its kind and in addition, it strengthens every organ of the body, restoring strength and health to the whole system.

42 SICK IN SCHOOL EPIDEMIC.

215 Reformatory Boys Have Been Exposed to Fever.

Portland, Me., April 19.—Thirty-two boys and 10 officers at the state reformatory school are ill with scarlet fever in one of the cottages of the institution, which has been turned into a hospital, and every day is marked by new cases developing. The first case, which was discovered within a week, was taken into immediate care of, but every one of the 215 boys in the school had been exposed and it is feared that the epidemic may spread so as to take in nearly all the place on the reformatory commission refused by W. M. Shuster. The department is said to be much rattled over the publicity given to the reported objection of the white commission to travel in the same vessel with the negro commission.
About 25 of the cases are serious and the others have the disease in a more or less mild form.

A LIBERAL OFFER

Rickett & Wells Guarantee to Cure Dyspepsia—If They Fail, the Medicine Costs Nothing.

To unquestionably prove to the people of Barre that indigestion and dyspepsia is curable, and that Rickett & Wells' Tablets will effect the cure, we will furnish the medicine absolutely free if it fails to give complete satisfaction to anyone giving it a trial.

The remarkable success of Rickett & Wells' Tablets is largely due to the new and successful method of manufacture, whereby the well known properties of bismuth, subnitrate and pepsin have been combined with carminatives and their agents.

Bismuth subnitrate and pepsin are recognized by the entire medical profession as specifics for acute indigestion and dyspepsia.
The pepsin used in Rickett & Wells' Tablets is manufactured by a new process which develops its greatest efficiency. Pepsin supplies to the digestive apparatus one of the most important elements of the digestive fluid, and exerts a tonic influence upon all the glands which supply all the other elements necessary to proper assimilation and digestion.

The carminatives add properties which promptly relieve the disturbances and pain caused by undigested food.

The perfect combination of these ingredients make a remedy absolutely incomparable and invaluable for the complete cure of indigestion and dyspepsia. We are so positively certain of this that we sell Rickett & Wells' Tablets on our own personal guarantee that they will either cure you or cost you nothing. Three sizes, 25c, 45c and 80c. Rickett & Wells, The Red Cross Pharmacy, Miles granite block.

VERMONT IS INTERESTED.

In Conserving Water Supplies and Saving Our Forests, Says Gov. Prouty.

Spokane, Wash., April 19.—Vermont is not particularly interested in irrigation because the state is well supplied with water in all sections. We are, however, interested in our water power, and at the present time we are having them surveyed in connection with work done by the United States government, and we hope and expect that this will be of much benefit to us.
Governor George H. Prouty of Vermont says this in a letter to R. Insinger, chairman of the local board of control of the national irrigation congress, which will have its seventeenth sessions in Spokane the second week in August, adding:
"We are also interested in the matter of forest reservation in the White mountains, because of the conservation of the water in that section. The question of forestry is a very important one with us, as we have a great deal of waste land which should be planted to forests, and we should also learn to cut what we have more economically than we do at the present time."
"Our people have taken hold of this matter to the extent of appointing a good state forester and have made an appropriation for the purpose of his work thoroughly, and this I believe to be a very long step in advance of anything we have ever done in this line."

Mr. Insinger has invited Governor Prouty to appoint delegates to the congress, as, in addition to irrigation, the conservation of forests and other resources and problems of water power, deep waterways, good roads and lumbering will be discussed by the congress's foremost experts.

FLORIN \$8 IN BOSTON.

Highest Price for 20 Years with One
Exception.

Boston, April 19.—Flour of the grade used by bakers of this city for bread closed in the Boston market Saturday noon at \$8.80 per barrel by carload, the highest price quoted in the flour markets of the United States for 20 years, with one exception. The prevailing price at retail was 88 per barrel.
High prices, in the opinion of leading flour merchants, are bound to prevail for the next few weeks.
Prominent master bakers of this city declare that a majority of their trade have flour enough on hand and in storage to last for weeks.
They assert that the small bakery will have to buy in the open market, at prices now quoted and the housewife who bakes her own bread will be the real sufferer. They say the small baker will be unable to sell his bread at a profit, but will have to keep the price for his loaf the same as hitherto in order to compete with the larger bakers.
The general retail price of flour Saturday, by the barrel, was \$8.

Cleveland Pays More for Bread.

Cleveland, O., April 19.—The first rise in the price of bread in Cleveland came Saturday. Jewish bakers throughout the city raised four-cent loaves to five cents and 18-cent loaves to 20 cents. The price of eight-cent loaves was not increased, but the size of the loaves has been decreased. Twenty thousand persons are affected by the raise.

New York to Pay Six Cents a Loaf.

New York, April 19.—Joseph Beck, president of the East Side Bakers' association, said Saturday night that the 355 members of his association had agreed to increase the price of a loaf of bread from 5 cents to 6 cents.

The action will be formally ratified at a meeting next Friday and the advance would become effective the following day.

PATTEN AHEAD \$5,000,000

Profits Already Realized on
Wheat Corner

PRICE OF FLOUR GOES UP

And Bread Is Higher—The Prices Will
Never Be Substantially Lower,
J. J. Hill and Patten
Declare.

Chicago, April 19.—"The Patten pool" has cleaned up between \$4,000,000 and \$5,000,000 on the May wheat deal, the Tribune said Saturday. "Of this amount Jim Patten has pocketed fully two-thirds."

"Market experts estimate that the broker and his coterie have sold to the public 20,000,000 bushels of May wheat at an average profit of 20 cents, giving them a profit of \$4,000,000, and besides this he has made a substantial profit on July wheat, to say nothing of the September and December options which he has scalped in the market for a profit of from 2 to 5 cents, making his total winnings not much under \$5,000,000."

There's Wheat Enough, Says Sec. Wilson

Washington, April 19.—There is sufficient wheat in the country at normal prices to make bread for the American people up to the time when the new crop comes in, declared Secretary of Agriculture Wilson Saturday, amid the Chicago wheat corner, and those who attempt to keep prices up at present rates expect to get their money out of the common people—the consumers.

PATTEN'S ANSWERS TO WILSON.

Declares Own Information More Reliable
Than Government Figures.

Chicago, April 19.—After a memorable speculative week, the ticker's "good night" was received at noon at Chicago Saturday with a deep sigh of relief from board of trade men, not to mention an army of laymen drawn into the vortex of the wheat pit by the publicity given James A. Patten, the bull leader, and his following. Saturday Mr. Patten personally left the market to its fate, which (late, from the view of the Patten crowd, improved considerably, as prices advanced over a cent in May and July options.
Mr. Patten paid his respects to Secretary of Agriculture Wilson, declaring the latter's estimate of available supplies a joke, and lectured reporters who he alleged have been more entertaining than accurate in their stories.
As to talk of removing the tariff on wheat as a slap at manipulators, Mr. Patten was for it. "I am in favor of removing it right now, because we will have to do it inside of 10 years, at any rate. It wouldn't affect the price of wheat a penny, for the markets of the world are on a parity right now. Take off the duty on corn, oats and live stock, too, for it will not be long before we have to import them. I have said this before, and Jim Hill has been preaching it to the farmers along his railroads for the last three or four years."
"As to Mr. Wilson, he is absolutely incorrect. There were not 143,000,000 bushels on farms on March 1. The total was nearer 100,000,000 bushels. My information is better than his, and I know what I am talking about. But don't take it from me; go to any big trader who pays his money for accurate information on which to risk his capital. They tell me I have a corner in wheat. I have not. The wheat I have wouldn't feed the world for one day."

HEARING OF MRS. BOYLE WAIVED.

Counsel Satisfied That Prosecution Has
Proceeded Legally.

Mercer, Pa., April 19.—Former Judge S. H. Miller went before Justice of the Peace Thomas McCain Saturday and

The Talk of the Town
Our line of smart new Regal Shoe styles has won a lot of praise among the best-dressed men in town. These new Regal models are smarter than ever, and they show genuine custom style in every line and curve.

REGAL SHOES

Well-known New York and London custom bootmakers designed the models from which every one of these Regal Styles is built. They have a distinctive custom appearance found in no other ready-to-wear shoes. Moreover, they are made in quarters, insuring you an exact fit and perfect comfort.

122 North Main Street, Barre, Vt.

DECLARES SHE POISONED THE MAN SHE LOVED

Miss Baker Tells the Police She Put a
Love Philter in Anderson's
Coffee and It Killed
Him.

Pittsburgh, April 19.—Miss Emma Baker, aged 28, and of refined appearance, has surrendered to the police here under the impression that she caused the death of William Anderson of North East, ten months ago, by administering a philter to him in a cup of coffee.

"I poisoned a man I was in love with at North East and I want to give myself up," she said at police headquarters. Then the woman told a remarkable story. William Anderson, whom she says, she loved, became indifferent, and in hope of getting back his love she put a love potion in a cup of coffee, and he died of blood poisoning after drinking it.

From North East it is learned that William Anderson, a well known man, died suddenly in November, 1907, on the day he was married. Death, it was said, was due to blood poisoning caused by excessive cigarette smoking.

Miss Baker is not known at North East. It is suspected that she is insane.

HIGHEST IN 13 YEARS.

Water Rises Six Inches in 12 Hours at
Newport, Vt.

Newport, April 19.—Lake Memphremagog Saturday reached the highest mark since the freshets of 1890. The heavy rains of Friday night brought the water up nearly six inches in 12 hours.

The trains on the Passumpsic division, Boston & Maine railroad, have been running to Wells River and returning, as it is impossible to get through to White River Junction. Many of the mail clerks and express messengers who live in Springfield have been unable to get home since last Monday, having been caught this side of the freshet.

Surprising What Kodol Will Do

For you, when you need it. But the longer you neglect
Indigestion the more you will suffer.

And, of course, indigestion if neglected long enough, brings on serious diseases in which Kodol cannot benefit you. Some of these there is no help for at all. There are, in fact, very few ailments which cannot be traced directly to impure blood. And impure blood is always due to a disordered stomach. Use Kodol and prevent Nervous Dyspepsia. Kodol will effectually assist Nature to secure a complete restoration of good digestion. It does this by at once digesting all food in the stomach and keeping it digested, until the stomach is rested and can resume its own work. Kodol removes the cause—and the effect quickly removes itself.

When it is recalled that Apoplexy, Heart Disease, Cancer—and even Consumption—are due to poor digestion and poisons thus transmitted to the blood, and throughout the system—the importance of maintaining good digestion is at once realized. We knew what Kodol would do before we tried the first bottle we sold. If we did not know just what it will do, we would not guarantee it the way we do. Every tablespoonful will digest 24 pounds of food.

Our Guarantee. Get a dollar bottle of Kodol. If you are not benefited, the druggist will at once return your money. Don't hesitate; any druggist will sell you Kodol on these terms. A dollar bottle contains 24 times as much as the 50c bottle. Kodol is prepared in the laboratories of E. C. De Witt & Co., Chicago.

Drown's Drug Store Wants Your Trade

Our business grows, we believe, faster than any store in the State and is growing faster this year, than ever before. Yet we want more trade as we are trying every day to make this the ideal drug store and we can do it. Large Stock, Fair Prices, Prompt Service we have—all that we want now is your patronage. What do you want in our line?

E. A. Drown, Druggist, Barre, Vermont.
